Warrior Portable Incident Command Kit Model WPH-PCK

The Warrior Portable Incident Command Kit, WPH-PCK is a ruggedized, self-contained battery/charger/equipment package designed to support a variety of equipment required by first responders and incident commanders.

It provides portability and instant deployment of communication equipment to locations with limited or unreliable AC power.

The WPH-PCK, is ready to operate, anywhere, anytime. The design allows all hardware and software to be fully configured, connected and operated in the case.

The package is highly modular and flexible. It provides rugged and secure storage/transportation for the equipment as well as room for documents, cables and other small items. All major components are industry standard and user serviceable.

The WPH-PCK will operate for 8 hours on battery or continuously from AC, vehicle power or solar power. Continuous charging during operation or standby/storage will keep batteries in all equipment fully charged.

Incident Command - Typical 2 Case Configuration:
Case A: Laptop, FAX, 3G/Wi-Fi router, VOIP Gateway and wireless VOIP phones.

Case B: Printer, BGAN, VOIP desk phone, spare laptop, VHF Radio, VHF Amp

Specifications

Operate time	8 hours (all batteries fully charged)
Case	Ruggedized, plastic, tan, with handle and wheels.
Case size	24.6 x 19.4 x 12 (wdh")
Case weight	43 lbs (with battery, charger, solar controller)
AC inlet	Single external input charges all batteries
AC charger	100 – 240 VAC 90W input, 12V5A DC simultaneous charge and operate for equipment up to 40W
Battery	12V/18Ah (216Whr), sealed over/under charge protected.
Monitor	3 digit LCD battery voltage display with low voltage alarm.
Solar charger	Controller supports 12V solar panels up to 80 watts. External input connector.
Power control	DC On switch, 10A fuse
Power out	12V 40W avg. Six (6) 12V vehicle power outlets Three (3) 12V DC power cables

Communication Equipment

3G/Wi-Fi	3G/Wi-Fi router with extended range antenna kit
User supplied	All other equipment is user supplied as desired
